Brief Description

DONATIONS RECEIVED THROUGH GIVEINDIA IS USED ONLY FOR POOR BENEFICIARIES

Marathwada Gramin Vikas Sanstha (MGVS) is a Non Profit Organization working in the outskirts of Aurangabad Dist of Maharashtra State since 1995 for the down trodden and affected. MGVS works mainly in the area of health and education in the most backward areas of not only Aurangabad, but also of Jalna, Nasik, and Ahmednagar Districts of Maharashtra state.

In health, MGVS works particularly in reproductive & child health for needy rural poor and prevention and control of STD and HIV/AIDS among the high risk and vulnerable group since 2001. MGVS, as its strategy believes very strongly in people's participation in all its interventions in every stage, be it planning, implementation, evaluation or monitoring.

While working in the area of health and education MGVS has come out with different experiences, learning's and needs. During our intervention among the High risk, vulnerable and bridge population, we have come across a number HIV+ve children but do not have any attention or support. It is for these children MGVS started home base care and support for 172 children as most of them are orphans or semi orphans.

MGVS INITIATIVE in Providing Nutrients Food:

Food nutrition is important to all people—whether or not they are living with HIV. But some conditions related to HIV/AIDS and its treatment, mean that proper nutrition is really important to people with HIV. Eating well is key to maintaining strength, energy, and a healthy immune system. In addition, because HIV can lead to immune suppression, food safety and proper hygiene is a concern to prevent infections. MGVS take proper care and never compromise in the quality of the food that we provide to the effected child because each life is precious to us and we think that they also had their right on good quality and rich nutrients food as others have who can afford.

MGVS providing partial nutrition they are as follow:-

Sr. No	Food Item	Weight
1	Groundnut Laddo: Groundnuts are rich in protein, an essential nutrient that helps your body build and maintain muscles, hair, skin, organs and other body tissue.	2Kg
2	Sprouts (Protein): Sprouts are rich sources of vitamins, minerals, trace minerals, enzymes, antioxidants, chlorophyll and protein. They are low calorie and contain little or no fat. The fat they do contain is the healthy fat that your body needs. As some of the most nutritious foods that exist, they make a great addition to any healthy eating plan.	2kg
3	Rice: Rice is a nutritious food and an important part of a healthy diet. Rice contains more than 15 vitamins and minerals that help protect against disease and ensure healthy growth during childhood.	2kg
