In month of Septemebr, 2014 , she was pregnant. She delivered a baby girl in the month of October, 2014. The girl child was then kept at the institute called Children of the World, Nerul for postnatal care as was not able to take care of her. With medication and counselling, started improving. She remembered her past and gave details about her family.

belongs to very poor family. got married 10 years back. Her husband Mr. Tulsiram Solanki used to work as a labourer in a field. It was a joint family. After her marriage she underwent lot of financial as well mental stress. She was always ridiculed by her in law's family. On her first delivery she started suffering with psychological problem. She was taken to a psychiatrist and was under medication. She was better with those medicines. But she left the medication in between and started having problems again.

Due to poverty and her husband decided to come to Mumbai for work. In the year 2011 she and her husband along with two sons came to Mumbai without informing their family members of their residential address in Mumbai.

She was not able to say how she came on the streets and was located by the police. She just remembered that she had left her home one day in the evening and then she landed in hospital. She was able to give her parents address in bits and pieces. The social workers used the internet to search her family address and after repeated follow-ups contact was established.

Social worker asked family to send the necessary documents and after that her family had agreed to come and take her back home.

On 11th March, 2015 her father, sister and brother in law, Mr. Arjun Solanki came to pick her up. Father and sister were in tears. All of them were very happy to see each other after four years. Her sister is ready to take care of Dwarki's daughter. They all thanked Neptune Foundation for the reunion. The reunion generated a very touching moment between the families. They were absolutely overjoyed and just couldn't believe their eyes.
