TRN-0006516725/TD-0007128172	Sponsor a low cost toilet for an extremely poor family living in a village	Prakash Manohar Khandagle	Success	16-Aug-2017	<p>Reached Aurangabad from Nanded at 5 am in the morning. Tired as much, I went to the place I was accommodated, slept for a while and left at 9 am to visit Marathwada Gramin Vikas Sanstha's (MGVS) various locations to meet different beneficiaries benefitted by their various programs across Aurangabad district. I enquired at the bus stand about this village in Aurangabad I wanted to visit, but no one knew about it. So I asked for the taluka and reached after 2 hours, supposedly I had taken a 2 hour journey for a half an hour one. There was one good thing that happened, in the Taluka where the bus dropped me, I saw MGVS's local office which made me feel at home. I went in there and found a clerk who was a localite. Without much hesitation I asked him to take me to all the beneficiaries without informing the beneficiaries that I am visiting them. He was humble enough to take me around on his bike. On my way, to my surprise, I could see boards with GiveIndia written on it so I started enquiring. I was impressed with the kind of detailing MGVS had done. On every board, they had put up an information of what that was for and who had donated funds for the same, be it toilets or an ambulance which ferries local people to the hospitals nearby to the construction of a canal. Not just that, along with the name was the transaction ID mentioned on these boards. On this amazing note, I went on to meet Prakash Manohar Khandagle and confirmed about the benefits that they have received from MGVS with the support of GiveIndia donors.</p>	Pauras

TRN-0006621088/TD-0007250339	Yearly support for an orphaned vulnerable HIV positive child undergoing ART treatment	Master. Kunal Sarang Rokade	Success	17-Aug-2017	<p>Visiting Master. Kunal Sarang Rokade was an extremely difficult expedition, not because the house was somewhere in the interiors or the village was not found or the road transport was bad but merely because it was disheartening to see this really young chap fighting something that we cannot even imagine. A house isolated from the mainland (as it is seen in most who are diagnosed with HIV AIDS). Reached the place without much of a hassle as I was provided the contact details of Master. Kunal Sarang Rokade, as I called them to find about his whereabouts. Having met him, both his mother and Master. Kunal Sarang Rokade confirmed of the ART treatment that was received. ART treatment is provided by the Aurangabad government, where MGVS plays a vital role in spreading awareness, making sure that the ones infected do not miss out on the treatment on the scheduled days and also provide the children with school books, bag and food supplies.</p>	Pauras
