

## BENEFICIARY VISIT REPORT

<b>NAME OF THE NGO: St Jude India Childcare Centres</b>
<b>NGO ID: 1178</b>

Transaction Id	DO Name	Beneficiary Name	Status	Date of Verification	Remarks	Assessor Name
MDO-0198/001	Sponsor the daily transport cost of our children from Parel Centre to Tata Memorial Hospital	Children living at St Jude Childcare Centre for their treatment	success	8-May-2015	Met 6-7 families of the beneficiaries and they all confirmed that each day they get a van service from St. Jude to Tata memorial Hospital and back free of cost. The number of trips depends upon the doctor's call. Few patients visit the hospital each day and some would go 3- 4 times in a week. There are even some who need to visit 2 times in a day also. The NGO registers the number of trips made by each patient in a manual register. They also use a software to keep the record of the patient who had stayed with them..i.e. when he came and went and also when is he/she likely to visit in the future. I had checked the details of Shubham Singh Rajput and it was very much in place.	Anupriya Mishra
Pre verification Report/	Sponsor safe and reliable transport of children undergoing cancer treatment from a St Jude centre to the hospital and back for 2 days	Sangeeth	Success	29-Jan-2016	Mamta, Sarojini and Soni are the mothers respectively. They were at the centre with the children. All of them are from Bihar. Sunny is at the centre for the past 1 year, Sangeeth for about 8 months and Adarsh for 5 months. They all go to AIIMS for treatment. As a routine, leave at 7am in the St. Jude bus to AIIMS and get back either by the 2pm shuttle or the one that leaves later at 4pm or 5pm, depending on the treatment/ tests to be done for that day. They are provided all dry rations, kitchen utensils, a starter pack which also contains soap/ spices / toothpaste/brush/etc. Every Sunday they are provided rations for the week. Oil is provided only once in a month to discourage too much usage of the same. Families are supposed to buy their own stock of vegetables and milk. A fridge is provided to store all the stuff. There are 2 buses and one van for emergency. Thrice a week, Dr. Sonika, a professional counsellor visits the centre to speak with the families. Kiran, a teacher, helps children with basic education, arts & crafts, games, celebrations, etc in the evenings, when they are back from the hospital. The mothers are also taught healthy cooking, basket weaving, knitting, painting, etc.	Sunita

Kiran, a teacher, helps children with basic education, arts & crafts, games, celebrations, etc in the evenings, when they are back from the hospital. The mothers are also taught healthy cooking, basket weaving, knitting, painting, etc. This facility has 4 units - D1, D2, D3 and D4. Two independent houses, right next to each other and each floor in each house is designated as one centre. D1, D2 and D3 can accommodate 11 families each and D4 can accommodate 9 families - currently full capacity. Both houses are being used by St. Jude on a rental basis. Everything is provided for free at the centre, which the mothers confirmed.	Sunita
