TRN-0006598352/TD-0007225292	Encourage a poor tribal child to attend school by feeding him/her at school for a year	Basanti Muduli	Success	9-Sep-2017	A campus of 25000 children is an extremely difficult affair. Especially when the children who study there are from various tribes of Odisha. After having gone through their entire campus, state of art and use of modern technology in education was a treat. Really smart bunch of children, spoke effortlessly, sung songs with me and also sung a few of the tribal songs. From arts to science to sports to literature, the campus seemed extremely rich. While going around, I suggested the Principal to gather all the students supported by GiveIndia in one classroom so that I could talk to them at large about the benefits they have been receiving. Basanti Muduli confirmed of getting all the meals at no cost whatsoever and is not charged for anything ranging from education to study materials.	Pauras

Especially when the children who study there are from various tribes of Odisha. After having gone through their entire campus, state of art and use of modern technology in education was a treat. Really smart bunch of children, spoke effortlessly, sung songs with me and also sung a few of the tribal songs. From arts to science to sports to literature, the campus seemed extremely rich. While going around, I suggested the Principal to gather all the students supported by GiveIndia in one classroom so that I could talk to them at large about the benefits they have been receiving. Mohar Sandil confirmed of getting all the meals at no cost whatsoever and is not charged for anything ranging from education to study materials.	Pauras
