TRN-0006425943/TD-0007019926	Sponsor the living expenses of an orphan or semi orphan child in Sneha Balgruha for a month	Komal Dattatray Vighe	Success	17-Aug-2017	Experience visiting Snehalaya was kind of a pleasantly different one. A huge campus where volunteers from India and other places were sitting in groups with the children. It was a holiday due to Parsi New Year so all the children were in the campus only. I gave the names of the children I wanted to meet and verify to the receptionist. A volunteer from Britain spoke to me to understand the kind of work GiveIndia does. All the children I wanted to meet came together and we sat in the open and I interacted with all of them in groups as well as individually. One more experience which I had was even more pleasing, all the children were friends with each other without discriminating each other by sex, caste, creed or even health condition (HIV AIDS affected children were also there, smartly interacting with everyone and everyone very warmly talking highly of each other as well as Snehalaya). When I was talking to them individually about their family and life at Snehalaya, I asked them about the benefits they get at Snehalaya where in Komal Dattatray Vighe confirmed of not having to pay any fees for the hostel, education as well as for the other facilities that are provided.
